

Just Enough 2024 Roller Coaster Ride Plan

Intelligence insiders have been cautioning us that 2023-24 would be THE years we would remember most, with tips that we load up with money and supplies as if we expected a 30-day grid outage with little or no access to banks and who knows what else depending on local conditions. Why would this be?

There are at least half a dozen major life style adjustments in the works that are described here and how it will pan out as they interact is anybody's guess. They all will happen and things will be better when we have them in place, but getting there is likely to be inconvenient. If you are an anxious person, it will be hard to deal with unless you know, in advance, what is likely to happen and why, but most of all why NOT to worry. The more attached you are to narrative dictates, news coverage and the like could interfere with your piece of mind, try to adopt a middle neutral path as you make life decisions. The better educated you are about [Galactic affairs](#), the better off you will be as well to allow for cosmic surprises.

This is a conceptual study guide and annotated bibliography to help you do your homework in finding quality sources of information for the divergent and unexpected ways in which life will begin to drastically change in 20234, dubbed by Michael Salla in his weekly updates as "catastrophic disclosure". Core ideas are presented and resources are offered. Your career and assets will be on line this year like never before. There is a lot to learn and reliable information will not be that easy to come by especially for those treading new ground.

Historical Note

Our Space Force asked for and received assistance in 2021 to clear the remnants of those malevolent and invasive ET forces that held sway of global political control. By 2022 they were [eliminated](#) and the responsibility of the cleanup of the in place corrupted monetary and political superstructure was mostly left in our hands. The power of the overlords to continue to use their protected financial, technical and political tools was greatly diminished, but not gone. Only the uppermost crust even knew that it had even been in place and now their levers were failing. Now we had the power to slowly remove the money laundering bankers and confiscate and redistribute their international assets so that every nation that signed on could function with gold-backed confidence. The bulk of that invisible financial footwork is said to be over. The hollow banking shells of what is left is about to collapse just before the replacement with a Quantum Financial System or QFS system is put in place. Charlie Ward appears to be a key player, but he claims his NDAs control how much he can reveal and when. He also claims the banks have started to fail one by one. He claims they are all on the way out and small depositors in particular, will suffer if they don't take action by buying his Gold products.

**

The Jeffrey Epstein fixer network appears to be defunct but his video library is still capable of controlling the rich and powerful. His rise to power and the reach of his tentacles is detailed in [One Nation Under Blackmail](#)--Vol 1&2 by Whitney Webb. Epstein "belonged to intelligence" and Volume 2 contextualizes him within the organized crime-intelligence networks and espionage activity to subvert American institutions as well as the role of Epstein and the Maxwell family in the evolution of blackmail in the digital era. It would be naïve not to assume the NSA has his video library handy for use.

Present Day

So here we are in 2023 at a half way point to sovereignty. The MSM still seemingly controlled by the CIA and by moneyed technocrats is still playing by the old rules thinking they are still immune to responsible behavior and a scattered bunch of rogue bureaucrats acting out as if they still owned the store. The banks where the laundered assets hide are in big trouble and dark clouds are gathering on the horizon as they are being baited by (outsmarted by) smartly dressed generals with AI quantum computers intent on restoring democracy. There is a new hostile legislature who is pounding the cabalist puppets into the ground and threatening to throw them in jail.

Public opinion has been split into and red and blue name calling narratives oblivious to most of what is going on behind the scenes.

Like it or not the covert military, by presidential order has been vigilant and active since the staged Biden inauguration. They have copies of all the Chinese bank drafts and will be happy to share them publicly when the time is ripe. The goal is to minimize needless

violent uprisings and deaths by allowing the adversary to reveal themselves in the worst possible light so as to awaken social discernment in the public sphere as normally and peacefully as possible. This is a long slow re-education process with many economic and psychiatric consequences. The PLAN is in-hand and operational and very private. [General Glen VonHerck](#), head of NORAD will be a public face for the plan when needed. He has an intimate working knowledge of it. The order of the day is the appearance of constitutional normalcy. The problem for the public is that the changes will incorporate monumental shifts in governance, finance, and the delivery of the news, to name a few. That translates to a fresh perspective and turmoil, the false sense of chaos instead a planned result.

Warning, public details are speculative assumptions based on study:

Knowledge of the inherent massive international corruption players and the dismantling of its' hierarchy. It is alleged that the upper crust of the control pie has been removed and that the sealed indictments of the remains will take years to untangle. The collapse will be very visible, very early. No more SCOTUS? The published foreign bank drafts will be a key trigger to a shifting consciousness. The fair dispersal of public moneys and the fair counting of votes in 2023 presumes the absence of swamp creatures. Vast GOVERNANCE revamps lie ahead.

Knowledge of the NESARA/GESARA passed by Clinton will give us a sense of the anticipated economic landscape. This includes the replacement of the existing SWIFT system with the laundry-proof Quantum Financial System (QFS) and massive bank closures and restructurings. No more Wall Street? The dead banks will be very visible and disconcerting. Vast FINANCE revamps will overhaul economic fair play.

Knowledge of MSM fear porn manipulation techniques and past crimes will cause grieving of the news hounds as ridiculous narratives are posed that would insult the intelligence of free-thinking adults. CIA involvement in massive past deceptions will become public and disturbing via congressional revelations. Vast INFOTAINMENT revamps also lie ahead.

The swing state certifications will be revisited for the treasonous frauds that kicked off the consequences that followed. The shamefaced traitors that were scripted into these roles will be spotlighted into public awareness. The weaknesses of the existing mechanisms will be redesigned using a secure StarLink Quantum Voting System. Vast ELECTION revamps will bulletproof us from future cheating.

Regardless of the many free historic UFO airshows that have been pooh-poohed by “debunkers” for decades, there will be many, many new ones that are so frequent as to be commonplace. It will be a message of compassion, our Galactic cousins reminding us that they are there as helpful brothers and sisters and are nothing to be afraid of, but instead a source of medical and technical assistance that will remake our lives for the better. Vast EXOPOLITICS disclosures will show us the true helpful intentions of our Galactic friends as well as glimpses of our hidden heritage.

Our existing medical knowledge will be up for grabs, much of it so corrupted with greed and incompetence and bottom line dominance. The regenerational aspects of the futuristic holographic med bed will require a complete rethinking of the practice of future medicine. Vast MEDICAL revamps will turn healing upside down.

Most complex of all is dealing in a graduated way with the consequences of near infinite free energy and anti-gravity. The livelihoods and retraining of huge segments of workers are in the balance. This is a very mysterious topic that must be planned very carefully. Gradual free ENERGY revamps will require prudence.

Collectively these changes will be a lot to swallow, day after stress-filled day, looking evil straight in the eye as power- and greed-based stakeholders squirm, squeal and attempt to smear their way out of self-exposure. As CIA genocidal schemes stare us straight in the face eyeball-to-eyeball. Vast GLOBALIST revelations will reveal crimes against humanity.

The years of truth, 2023 and beyond will, in the end, unroll to the masses as a remake of basic Terran realities and their consequences will create a new future as a truth-based planet. The public needs to see that there has been no constitutional protection of U.S. democracy from the existing corrupt office holders or courts. Only watchful men in uniform seem to be up to the job of the preservation of liberty and our hope for Terran SOVEREIGNTY.

The price of planetary sovereignty is patient acceptance and accommodation step-by-step to a workable restoration PLAN. Resistance only maintains divisive thinking and produces a collective trauma for those disaffected the most. There are many peaceful and spiritual benefits waiting for those who awaken with a joyful heart to this very new dimension of

freedom that is vibrationally different from the planet we know today.

For the interim think grid down prepper preparedness tips! Each person's psyche, place and path is unique. Be aware, accepting and thoughtful in your approach. The key to changing a roller coaster ride into a peaceful journey is the confidence that all is basically well and will play out for the best when your loving heart is at peace. This recent message and glimpse into our future is well-presented by Angelic forces spoken recently via spiritual coach Michelle Fielding. Take heed, her work is important to understand as a cautious prophetic voice for the years ahead.

The New Earth (Quantum) - The Golden Age via [Michelle Fielding](#)

<https://www.youtube.com/watch?v=YEjUI0bXajI> 14 minutes 11/11/2021

Going forward, there will be many changes on a human level of consciousness and on a planetary level of consciousness. Many old paradigms are in the process of becoming dismantled and internationally, many governments will fall as the old electoral systems prove to be contaminated with faulty equipment and corrupt officials. A whole new Quantum Voting System will be used going forward, which cannot be hacked. The leader of the free world will change and a new system implemented from the ground up. The new world will grow from the grass roots.

The monetary system, as it is currently understood, will now collapse and the Quantum Financial System will begin using digital currency backed by gold. The old banking system will go. It will be obsolete. People will have digital wallets within the Quantum Financial System and they will communicate with it directly, no middlemen. In the future you will apply for all loans directly from source, from the Q. F. S. the Quantum Financial System. The transfer or application will be instantaneous and will be approved based on the nature of the application, irrespective of any capital you currently hold. In the future, money will be allocated based on your intentions, on how you choose to spend it. For example, where your need is to provide a service to help others, to serve humanity, then the funds will be plentiful. No corrupt middlemen will be used and no interest will be charged. The funds in the QFS, the Quantum Financial System are plentiful and will flow easily to those of good intention and to those in need. The family structure, the community structure and sovereignty will be key indicators of how funds are allocated. No large, cumbersome organizations with top down structures will be funded in the future. The changes for these new systems are already beginning, mostly behind the scenes. The quantum structure is being tested and linked to each country via StarLink and the signing of charters in each region or country. The charters are international in their template precepts, but will be altered at the grassroots levels to accommodate cultural, religious and ethnic differences. In the future, peace will be a prerequisite for each region to be able to use the quantum structure. And so *eventually the need for military or political control through force or cumbersome governance will be obsolete*. Communities will be self-governing, self-funded and autocratic in the sense that they work independently of any centralized governance.

The entire global system of education will be overhauled to become more child friendly, to accommodate natural aptitude rather than forced curriculums or doctrines. More children will be schooled from home or in smaller community settings. Larger educational institutions like universities and colleges will become obsolete. People will learn for pleasure.

The old medical paradigms will be completely overhauled initially with the introduction of more holistic modes of treatment, for example, sound vibration and frequency. Over time, hospitals will be disbanded as medicine moves more into local communities and becomes focused more on prevention than cure. Counselling, massage, hypnotherapy, reflexology, herbal remedies, homeopathy will now become commonplace.

People will not commute for work. All jobs will be designed to work either in the home or closer to home. Commuting will become a thing of the past. Cities will be repurposed as populations move into the countryside. Cities will no longer accept or witness any forms of

homelessness.

All animals will be revered and money will be plentiful to help animals to be safe, fed, happy and rehabilitated. Mental health services and professions will be readily available to all who need it, no waiting as humanity now moves through its collective healing process. Mental health services and professions will be readily available to all who need it as humanity moves through its collective healing process. There will be no waiting. By 2032, all collective trauma will be healed.

The emphasis will move from designer labels to products of natural pure origin. Life will become more simple, more happy, more peaceful as people move towards *being* rather than *striving*. The old paradigms of stressful, competitive education through to a competitive rat race, then to a retirement surrounded by fear of poverty or ill health, deteriorating health and a lack of income or security.

These will all be things of the past. Everyone will have an equal opportunity to pursue whatever they want to do with their lives. Jobs which were labor intensive like rubbish collection, will move more towards automated systems, and local communities will create innovative ways to reduce waste in all areas of their lives.

As food moves more into being grown locally, where it will be grown organically and only as required, then the need for excessive packaging will decline. Foods will be local, clean, organic, pesticide-free and cruelty-free to animals. People will move more towards meat-free living as consciousness wakes up to the ability to hear and understand animals.

As transport needs change, so will traditional roads and transport systems change? Bikes and methods of transport for pleasure will be plentiful. Old pollution problems from vehicles, transport and industry will cease as we move into new cleaner technologies. For example, Tesla based technology which can create free electricity. Natural resources like wind and solar will be utilized in a much bigger way. Communities will work in cooperation with nature rather than against it. New technologies will be built with safe levels of EMF emissions.

Large government buildings like Parliament and the White House will be closed and repurposed for recreational activities. Centralized government systems will be devolved to the people. The emphasis going forward will be on maintaining a peaceful, harmonious family and community structure where people feel abundant and supported. Emotionally, financially and politically people's health will gradually be restored *en masse* as stress levels reduce due to the increased emphasis on community. Better care of pregnant mothers, nurturing environments for children and teens and supportive communities for adults and families. The New Earth paradigm, the Age of Love has been decreed by God and the whole of humanity will soon be waking up to an ongoing process of radical change, emotional, physical and psychological.

The world is changing for the better even though during these changes it *will seem chaotic and enforced to those unaware of the vision of the New Earth*. It will feel imposed and stressful in some cases, as all the seeming disparate pieces are moved into place and new systems and structures are brought in.

Many souls, unable to accept change on this grand scale, will choose to exit the Earth plane during these times of exponential change and restructuring. New souls will incarnate to help the many high vibration children and adults that remain and who are working night and day to maintain their vibration so that the world can take this quantum shift. The Galactics and the Angelic and God host overlight us all through these *extreme* changes and upgrades.

The New Earth and world is decreed.

Welcome to the Age of Love, The Golden Age.

[END OF ANGELIC TRANSCRIPT]

[Spring Cleaning Trailer](#)

Here's my plan to dismantle the Deep State and reclaim our democracy from Washington corruption once and for all and corruption it is.

First, I will immediately reissue my 2020 executive order restoring the President's authority to remove rogue bureaucrats and I will wield that power very aggressively.

Second, we will clean out all of the corrupt actors in our national security and intelligence apparatus and there are plenty of them. The departments and agencies that have been weaponized will be completely overhauled so that faceless bureaucrats will never again be able to target and persecute conservatives, Christians or the left political enemies which they're doing now at a level that nobody can believe even possible.

Third, we will totally reform FISA courts which are so corrupt that the judges seemingly do not care when they are lied to in warrant applications. So many judges have seen so many applications that they know were wrong or at least they must have known. They do nothing about it. They're lied to.

Fourth, to expose the hoaxes and abuses of power that have been tearing our country apart. We will establish a Truth and Reconciliation Commission to declassify and publish all documents on Deep State spying, censorship and corruption and there are plenty of them.

Fifth, we will launch a major crackdown on government leakers who collude with the fake news to deliberately weave false narratives and to subvert our government and our democracy. When possible we will press criminal charges.

Sixth, we will make every Inspector General's Office independent and physically separated from the departments they oversee so they do not become the protectors of the Deep State.

Seventh, I will ask Congress to establish an independent auditing system to continually monitor our intelligence agencies to ensure they are not spying on our citizens or running disinformation campaigns against the American people or that they are not spying on someone's campaign like they spied on my campaign.

Eighth, we will continue the effort launched by the Trump Administration to move parts of the sprawling federal bureaucracy to new locations outside the Washington swamp just as I moved the Bureau of Land Management to Colorado. As many as one hundred thousand government positions could be moved out and I mean immediately of Washington to places filled with patriots who love America and they really do love America.

Ninth, I will work to ban federal bureaucrats from taking jobs at the companies they deal with and

that they regulate. So they deal with these companies and they regulate these companies and then they want to take jobs from these companies. It doesn't work that way such a public display cannot go on and it's taking place all the time like with BigPharma.

Finally, I will push a constitutional amendment to impose term limits on members of Congress. This is how I will shatter the Deep State and restore government that is controlled by the people and for the people. Thank you very much.

2023 IS THE MAIN EVENT

Notes

The **PLAN** will seem slow and inconvenient as re-education can be painful. It must accommodate the slow learners or end in failure. The snowball effect will give things a nudge to relieve the boredom. The net effect will be very dizzying, confusing at many levels

The PLAN has been under development for decades. The PLAN is not a seeming hodge-podge of chaos, but a carefully laid out path, however it looks in the short term, which will serve well in the end.

The PLAN is a well-funded mix whose simultaneous interlocking goals will not be evident and may look disorganized. The chess masters will have lots of surprises, a juggling act perfect for discernment training, never a dull moment for the news addicted. The tease of disclosure will always be dangling. The art of dispassionate observation will help all to learn and grow.

Bipartisan allegiance to public **GOVERNANCE** figures is about to go crazy. There is so much accumulated well-documented bribery and perversion smear material available in the Lolita video archive to entertain juries and tribunals that can later become publicly available early on for huge numbers of sitting puppets that will need to find new occupations. The terrabytes of bribery records supplied by Chinese counterintelligence defector Dong Jingwei will certainly play a central role in undoing thousands of bit players in the collapsing house of cards.

FINANCE makes the world go round and without wallet reform all is lost. The banking world will be turned upside down. There will be no caboose on the long train of bank closures. Having ready short-term cash and goods on hand will be essential to monetary survival. Early adoption of NESARA/GESARA will teach many lessons about the benefits of fair play.

NESARA restructuring will:

- Reduce social inequalities and problems by doubling the average standard of living
- Eliminate trillions of dollars of public and private debt
- Return control of the currency to the public
- Reduces the cost of using public currency
- Provide new banking rules that are equitable and fair to all
- Provide \$500 billion of new public works projects
- Replace the income tax with a fair tax
- Improve the balance of trade problems
- Rebuild American industry with high-paying, productive jobs
- Eliminate inflation

Terra will become sovereign, that is incontestable based on the Looking Glass forecasts supplied by internal Space Force future viewing technology, it is just a matter of time and the more pushback the Terrans give to CIA and corporatist dogma the faster the awakening will proceed.

Just Enough Corruption; Money, Power & Perversion, An Executive Summary by Averell Zackary

<https://bit.ly/3yXPEry>

A short summation and bibliographic resource guide to modern corruption.

Most people don't spend much time thinking about corruption, most people would probably not like to think about it at all. Until recently the public conception of corruption has been skewed toward a very soft or petty view based on ideas like bribery, embezzlement and abuse of personal power. After recent political events that view is shifting to a grander view of a deeper-seated systemic presence, the puppeteer perspective of societal control which has kept itself hidden from public awareness. The functioning of this kind of structure is much more complex and broad-based that people would like to believe until the evidence of the "hidden hand" is so glaring as to be undeniable. The beast of a massive authoritarian presence is here in the face. Many are coming to believe that recent events which seemed all too coincidental are part of a well-organized plan to benefit the moneyed few in ways that were not very evident in the beginning until they had time to play out.

Just how did we get here? How did the players become entrapped in this web of deceit? What are the rules of this bizarre production?

Ignorance was bliss and knowledge makes life messier, very, very messy and you won't find the rules of this game in a Civics 101 textbook. It goes without saying that affluence enables/promotes influence, but the details are hidden by the doers in the interests of self-preservation, the exact whys and hows.

We live in a public relations hologram financed by resources of the ultra-rich who use tools like manipulation of the press, smears, social pressures, outright blackmail, and an organized deniability style of violence reminiscent of a low key cartel.

The people who do think about corruption a lot are the people who have condemned themselves to live a life of corruption. They don't want to get caught. They are desperate, they lie, cheat, steal, threaten, blackmail, maim, murder, just like a Mafioso thriller. They have a lot to lose.

Be forewarned that the discussions in the book are not a polite outline of heretofore undisclosed details. It tells not only what makes dirty politics ugly, but just how disgusting the whole mess is. These details are not for [dinnertime](#) discussion, but a sense of these truths are essential for the comprehension of forthcoming events and prosecutions. It will be hard to believe for many.

Laptop From Hell; Hunter Biden, Big Tech, and the Dirty Secrets the President Tried to Hide (2021) by Miranda Devine

https://archive.org/details/laptop-from-hell-hunter-biden-big-tech-and-the-dirty-secrets-the-president-tried_202210

The inside story of the laptop that exposed the president's dirtiest money laundering secrets. Hunter would negotiate the ongoing bribes for decades and had the finance records on the laptop. It is no wonder that Joe was never able to succeed in any of the U.S.-China trade negotiations, failure by design explains that outcome.

When a drug-addled Hunter Biden abandoned his waterlogged computer at a Mac repair shop in Delaware in the spring of 2019, just six days before his father announced his candidacy for the United States presidency, it became the ticking time bomb in the shadows of Joe Biden's campaign.

The dirty secrets contained in Hunter's laptop almost derailed his father's presidential campaign and ignited one of the greatest media coverups in American history.

This is the unvarnished story of what's really inside the laptop and what China knows about the Bidens, by the New York Post investigative journalist who brought it into the open.

It exposes the coordinated censorship operation by Big Tech, the media establishment, and former intelligence operatives to stifle the New York Post's coverage, in a chilling exercise of raw political power three weeks before the 2020 election.

A treasure trove of corporate documents, emails, text messages, photographs, and voice recordings, spanning a decade, the laptop provided the first evidence that President Joe Biden was involved in his son's ventures in China, Ukraine, and beyond, despite his repeated denials.

This intimate insight into Hunter's dissolute lifestyle shows he was incapable of holding down a job, let alone being paid tens of millions of dollars in high-powered international business deals by foreign interests, unless he had something else of value to sell—which of course he did. He was the son of the vice president who would go on to become a fake leader of the free world in a stolen election.

Just Enough Election Fraud, A 2020 Executive Summary

<https://archive.org/details/just-enough-election-fraud-a-2020-executive-summary>

To Democrats the idea of a 2020 stolen election is a Big Lie, to Republicans the announced win is a Big Lie.

We see discrepancies in media voices, political voices, medical voices, entertainment voices, racial voices, legal voices, academic voices, technical voices, even food voices. We come to feel that half the people around us are lying to us and cannot be trusted. The focal point of these disagreements is often manipulation and disinformation from the MSM media to create and perpetuate the divisions.

People with money and power who control the media substantially affect the way international decisions are made, what is legal or illegal, how the economy is run, how people make a living, who they have as friends, even whether they can go to church or not.

They also dictate, in most cases who wins elections. A big part of this recently has been the use of COVID rationale to strike down basic human rights guaranteed by Constitutional protections relating to medicine and the conduct of elections.

The globalists want international power over all lives (blue narrative), the nationalists want local control of their personal lives (red narrative). Those with the blue wallets have more money in them and can often override the well-being of everyone else on the planet through rigged elections and corruption of core infrastructures.

The Executive Summary drills down to nitty-gritty details to gain an understanding of how this is done citing recognized experts. It also contains a set of annotated recent books by authoritative authors so those who want to study the subject more deeply can choose directions that best suit their interests. What did the makers of the [2000 Mules](#) documentary discover?

What does Free and Fair mean to you? Is it possible to find the ownership of the "Big Lie"? What does this say about our future?

The True Story of Fake News by Mark Dice

<https://archive.org/details/the-true-story-of-fake-news-mark-dice/The%20True%20Story%20of%20Fake%20News%20-%20Mark%20Dice/>

Is fake news being spread through social media as part of an information war? Are political operatives publishing disinformation to smear the opposition and help their own agendas? Who creates fake news, how does it spread, and can it be stopped?

What are the real world effects of fake news stories that go viral? Did it affect the outcome of the 2016 presidential election? Or is 'fake news' a fake problem, designed to justify tighter control over the mechanisms of sharing information online to drive audiences back to brand name media outlets because their audiences and influence are dwindling?

Media analyst Mark Dice takes a close look at the fake news phenomenon and the implications of mega-corporations like Facebook, Google, and Twitter becoming the ultimate gatekeepers and distributors of news and information.

You will see the powerful and deceptive methods of manipulation that affect us all, as numerous organizations and political activists cunningly plot to have their stories seen, heard, and believed by as many people as possible.

The depths of lies, distortions, and omissions from traditional mainstream media will shock you; and now they're colluding with the

top tech companies trying to maintain their information monopolies. This is The True Story of Fake News.

[The Mainstream Media, the Enemy of the People by Dan Willis](https://archive.org/details/the-mainstream-media-the-enemy-of-of-the-people-dan-willis)

<https://archive.org/details/the-mainstream-media-the-enemy-of-of-the-people-dan-willis>

Just enough fake news, a well-spoken insider executive summary by a former ABC news reporter. Experience first-hand how the mainstream media is deceptively controlling the information which controls the perceptions of the public toward an agenda, an agenda that does not serve the best interests of the American public. This infiltration into our media and information systems truly represents a domestic enemy to the constitutional republic of the United States and U.S. citizens need to be alert to this threat that is continuing to wage psychological warfare against our nation.

This well-documented history, investigation and resource is well worth the time of anyone concerned about the problem of government propaganda, censorship and manipulation using tax dollars to subvert the underpinnings of democracy.

Just Enough Med Bed Holographic Technology by Skye Prince, Randy Cramer

<https://archive.org/details/just-enough-med-bed-holographic-technology-skye-prince-randy-cramer>

History

In 1953 classified treaties were signed with off-planet extraterrestrial civilizations that included technology exchange provisions. Also a [Secret Space Program](#) (now acknowledged as Space Force) was created that used these technologies which included space travel and medical advances hundreds of years more sophisticated than were then in use. They knew the genetic code and in the 1960s master military geneticists were busy at work augmenting Super Soldiers that would man SSP vessels and off-planet outposts. The most talked about innovation is the secretly patented med bed.

When in January 2017, President Donald Trump issued a [Top Secret Memorandum](#) for the release of 1000 of these advanced technology patents over the next two years, he was ignored by the intelligence community, and his administration subsequently targeted.

Med beds are said to be in [production](#) and are being warehoused until their release is given the green light

Introduction

What is a holographic med bed?

So that's a, vague broad term that describes a lot of different types of technological, automated medical systems that are in a medical bay of some time that do different types of automated medical procedures. This specific type of technology that we were using was called Hollaback, holographic cellular regenerator. So it uses exclusively a technology, which tells your cells through a holographic projection of a perfect version of your cells to repair to a perfect state.

The Real Anthony Fauci Book Tour – A True Crime Journey <https://bit.ly/3yYb0Fa>

by Robert F. Kennedy, Jr, Joe Mercola, Tucker Carlson, et.al

Bobby's alternative media book tour allows readers to explore many questions, both those popular issues covered in the book and asides they may have wondered about like prosecution. This is the 2022 nonfiction Book of the Year that sold over a million copies with no promotion

The interview hosts include Joe Mercola, Tucker Carlson, Del Bigtree, James Corbett and Catherine Fitts.

Pharma-funded mainstream media has convinced millions of Americans that Dr. Anthony Fauci is a hero. He is anything but.

As director of the National Institute of Allergy and Infectious Diseases (NIAID); Dr. Anthony Fauci dispenses \$6.1 billion in annual taxpayer-provided funding for scientific research allowing him to dictate the subject, content, and outcome of scientific health research across the globe. Fauci uses the financial clout at his disposal to wield extraordinary influence over hospitals, universities, journals, and thousands of influential doctors and scientists—whose careers and institutions he has the power to ruin, advance, or reward.

During more than a year of painstaking and meticulous research, Robert F. Kennedy Jr. unearthed a shocking story that obliterates media spin on Dr. Fauci . . . and that will alarm every American—Democrat or Republican—who cares about democracy, our Constitution, and the future of our children’s health.

The Real Anthony Fauci reveals how “America’s Doctor” launched his career during the early AIDS crisis by partnering with pharmaceutical companies to sabotage safe and effective off-patent therapeutic treatments for AIDS. Fauci orchestrated fraudulent studies, and then pressured US Food and Drug Administration (FDA) regulators into approving a deadly chemotherapy treatment he had good reason to know was worthless against AIDS. Fauci repeatedly violated federal laws to allow his Pharma partners to use impoverished and dark-skinned children as lab rats in deadly experiments with toxic AIDS and cancer chemotherapies.

In early 2000, Fauci shook hands with Bill Gates in the library of Gates’ \$147 million Seattle mansion, cementing a partnership that would aim to control an increasingly profitable \$60 billion global vaccine enterprise with unlimited growth potential. Through funding leverage and carefully cultivated personal relationships with heads of state and leading media and social media institutions, the Pharma-Fauci-Gates alliance exercises dominion over global health policy.

The Real Anthony Fauci details how Fauci, Gates, and their cohorts use their control of media outlets, scientific journals, key government and quasi-governmental agencies, global intelligence agencies, and influential scientists and physicians to flood the public with fearful propaganda about COVID-19 virulence and pathogenesis, and to muzzle debate and ruthlessly censor dissent.

The CIA does not do public health, by the way, it does coup d’etats against democracies. So between 1947 and 1998 the CIA was involved in 87 coup d’etats against a third of the nations on Earth, most of them democracies. So that's what they do.—RFK Jr.

It's important for the public to understand that the Project Lockstep COVID narratives are agency designed, not for health but for totalitarian control. We are feather 88 in their war bonnet.

The Great Awakening (Q Chronicles Book 2) (2020) by Dave Hayes

<https://bit.ly/3nbUZsw>

We've found ourselves pitted against one another [like never before](#).

Why has the world suddenly become so polarized?

Our beliefs about current events have us fighting against each other.

The anonymous intelligence insider known as "Q" says politicians and the media have created a false narrative about current events that conceal corruption from the public. Some choose to trust the media. Others choose not to. And therein lies the root of our struggle.

In this second book of the Q Chronicles series, Dave Hayes takes readers on another journey to unlock the truths hidden in the cryptic messages from the Q clearance patriot. As Q's messages are explained, readers are given a behind the scenes glimpse at how events unfold on the world stage

We'll examine the history of one of the wealthiest families of the modern age and learn how they amassed their fortune. We'll explore the corruption of the Vatican and how secret societies have controlled the destinies of nations. We'll trace the origins of the Federal Reserve and investigate the sinking of the Titanic.

Q's mission is to make the public aware of the truth of history and current events. The awareness of truth will bring about "The Great Awakening" - an era when society will reject the media's deception and see the world as it really is.

As we comprehend the truth, we'll understand that the real battle has never been about conservative versus liberal, black versus white. Those are merely distractions that keep us divided and controlled. The real conflict has always been about good versus evil.

Isn't it time we stopped fighting one another and focused our attention on the real battle-the fight to vanquish the forces of darkness?

The Authoritarian Moment; How the Left Weaponized America's Institutions against Dissent (2021) by Ben Shapiro

<https://bit.ly/3G52JTV>

How far are Americans willing to go to force each other to fall in line?

According to the establishment media, the intelligentsia, and our political chattering class, the greatest threat to American freedom lies in right-wing authoritarianism. We've heard that some 75 million Americans who voted for Donald Trump represent the rise of American fascism; that conservatives have allowed authoritarianism to bloom in their midst, creating a grave danger for the republic.

But what if the true authoritarian threat to America doesn't come from the political right, but from the supposedly anti-fascist left?

There are certainly totalitarians on the political Right. But statistically, they represent a fringe movement with little institutional clout. The authoritarian left, meanwhile, is ascendant in nearly every area of American life. A small number of leftists—college-educated, coastal, and uncompromising—have not just taken over the Democratic Party but our corporations, our universities, our scientific establishment, our cultural institutions. And they have used their newfound power to silence their opposition.

The authoritarian Left is aggressively insistent that everyone must conform to its values, demanding submission and conformity. The dogmatic Left is obsessed with putting people in categories and changing human nature. Everyone who opposes it must be destroyed.

Ben Shapiro looks at everything from pop culture to the Frankfurt school, social media to the Founding Fathers, to explain the origins of our turn to tyranny, and why so many seem blind to it.

More than a catalog of bad actors and intemperate acts, The Authoritarian Moment lays bare the intolerance and rigidity creeping into all American ideology – and prescribes the solution to ending the authoritarianism that threatens our future.

Technocracy; The Hard Road To World Order (2018) by Patrick Wood

<https://archive.org/details/technocracy-the-hard-road-to-world-order-2018-patrick-wood>

In 1974, Trilateral Commission member and academic Richard Gardner wrote an article "The Hard Road to World Order" for Foreign Affairs magazine, predicting the future of the Commission's self-proclaimed New International Economic Order. Gardner spoke of an "end-run around national sovereignty", a "booming, buzzing confusion" and building it from the "bottom up" rather than attempting an "old-fashioned frontal assault." After almost 45 years, it is time to examine the record. In *Technocracy: The Hard Road to World Order*, Wood traces the steps and developments that led to the United Nations' establishment of Sustainable Development as an outgrowth of historic Technocracy from the 1930s. UN programs such as 2030 Agenda, New Urban Agenda and the Paris Climate Agreement are all working together to displace Capitalism and Free Enterprise as the world's principal economic system. As a resource-based economic system, Sustainable Development intends to take control of all resources, all production and all consumption on planet earth, leaving all of its inhabitants to be micro-managed by a Scientific Dictatorship. Topics covered include the devolution of federal governments combined with the rise of global Smart Cities. Tools are examined, like ubiquitous surveillance, collaborative governance, Public-Private Partnerships, Reflexive Law, Fintech, including crypto currencies and the drive toward a cashless society. The spiritual aspect of Sustainable Development is also explored as an important component of manipulation. Looking underneath the cover of globalization, Wood shatters the false narrative of a promised Utopia and exposes the true nature of the deception used to promote this new economic order. Those elite who hate the bedrock of American liberty and its time-tested Constitution have pulled out all the stops to destroy both, and it's time for citizens to stand up to reject them. As always, Wood closes with the nature of effective resistance and the tools that can help to achieve success.

Technocracy wants to rule the earth in a panopticon of scientific dictatorship. Transhumanists want to live forever and become omniscient. Both are mechanistic systems that see nature as something to be studied, manipulated and conquered. Both see themselves as the new intelligent designers of the world, including humans. Both seek to craft a future for planet earth that nobody asked for, voted for or wanted. The real effects of such globalist goals need to be understood.

Angel Talk Flips NWO to Peace on Earth, Devolution Sunrise - Michelle Fielding

<https://archive.org/details/angel-talk-flips-nwo-to-peace-on-earth-devolution-sunrise-michelle-fielding/page/n9/mode/2up>

This collection of transcripts via Michelle Fielding relating to devolution of a two-party political system into a devolved situation where citizens can sidestep the corruptible middlemen that currently enslave them and usurp their personal and global sovereignty. Michelle is a seasoned channeling practitioner known for her accuracy. Her disclosures from wherever they emanate provide public guideposts to help the conduct of our lives during this trying devolution adjustment period.

Author and researcher Patel Patriot aka Patrick Gunnels has asserted that Trump knew well in advance from his advisors the various routes by which the DNC intended to steal the 2020 election and carefully drafted a set of Executive Orders, public and classified countermeasures.

Drawing on the strategy of war time president Lincoln, he draws on parallels Trump put into place to be able to clearly claim the status of *war time president* himself in a way hidden from view.

A war time president has at his disposal virtually unlimited power to arrest, imprison, seize assets, and place the military in whatever level of visibility is called for.

He does not have to announce his claimed status early in the game, he can just observe, bait, and toy with his opponents in ways that they will self-identify as do nothing puppets.

He can pounce unannounced at a time of his choosing for maximum impact, bewilderment and embarrassment. It is a form of invisible curative military rule suitable for this transition period.

The intended purpose, devolution of the two party system, is to drain the swamp of corruption and place key players in position for a modern day constitutional enhancement of democracy for direct citizen control of governance. This revolutionary goal is, by nature, a long slooow process that involves extensive planning at a political and military level. It is a global undertaking and involves the use of quantum technologies unavailable to past generations to enable a sovereign planet.

Just Enough Disclosure of Solar Warden and the Secret Space Program by Michael Salla, Richard Syrett

<https://archive.org/details/just-enough-disclosure-of-solar-warden-and-the-secret-space-program-michael-salla-richard-syrett>

Historically membership organizations like MUFON and BUFORA and authors like Raymond Fowler, Timothy Good and Stephen Greer have led the charge to tell the public UFOs are real and provide enough nuts and bolts evidence that only the swamp gas brain-washed would contest the UFO presence. The non-stop government induced 'controversy' and denial status was maintained to keep the public confused about the subject in perpetuity. It is not that the facts were ever unknown or in doubt in military circles especially after the Battle of Los Angeles and the many massive flyovers of Washington DC.

What the military knew would have been very shocking to the public and if any member of the public got too vocal about the truth, they were told in no uncertain terms to keep their mouths shut or else. The backdrop is a long series of events and tug of war of political and corporate realities. This meant fabricating a history for public consumption to be taught in schools and pushed out in disinformation campaigns. After year 2000 this strategy changed to allow controlled leaks by whistleblowers and encourage peeks at technologies of the future. The major movie [Above Majestic](#) and the Cosmic Disclosure series with over 200 episodes on Gaia.com are examples of extensive revelations exposing the Secret Space Program that can be found by any curious person using a basic search engine.

THE SHORT OF IT

The short of it is that we won the land war in Europe against Hitler and lost the UFO technology war for many decades while a breakaway Fourth Reich retreated to Argentina and Antarctica. By the time Reagan took office we had advanced to the point where we could time travel, venture off into other galaxies and maintain bases on the moon and other planets. Large Solar Warden fleets produced by the U.S. Navy's Secret Space Program were patrolling out solar system. News of this would not reach public ears for decades.

Regardless of this seeming secret success story, all was not well. We were still playing catch up. The Draco-backed Germanic off-planet faction, The Dark Fleet, was still stronger and better equipped and our efforts backed by another Galactic faction was struggling against the influence of a corrupt Interplanetary Corporate Conglomerate (ICC) that was selling off-planet technology to the highest bidder. In the end, in 2021, we only [won this war](#) after an appeal for additional help from a friendly Galactic Federation. With the top of the puppet master control structure gone, what remained was a mop up brick by brick of the collapsing massive corruption put in place with the advent of Operation Paperclip. "Never interfere with an enemy in the process of destroying himself." The top of pyramid is gone and all manner of nonsense is playing itself out as the money dries up.

That dismantling is full steam ahead as the military uses space age tools to identify traitors and gather evidence. By the end of 2023 we will be living in a very changed world and declassification of hitherto secret materials will begin at a controlled pace throughout the year. The shocks will be palpable as we see evil unveiled eyeball to eyeball."

We need to know what is going on and why so our intelligent voices are heard and respected. For our individual, national and planetary sovereignty to happen we need to be informed citizens worldwide. That has obviously not been happening and somehow we need to find a map for that path. The unawake and unaware need a shakeup to get them onboard and that shakeup starts bigtime in [2023, the year of Truth!](#)

It was December 27. I was in bed with a fever, yet I felt more elated than ill. Something about the consciousness I was swimming in, living, being in, seemed strangely familiar, as if my vision were coming into focus after a lifetime of double images. Without the calm reasoning guidance of the voice I heard speaking to me, I am not sure I would have made it through this stage. But someone—or something—was helping me along, identifying itself as a part of me that I had forgotten, an eternal part.

“I am a spirit being in the eternal fields of light,” it said. “I am you as you remain beyond material illusion, as you were, will be, and are now, before and after the spell of matter.”

My handwriting being quite illegible, my only method of recording anything of the amazing stream of consciousness I had somehow stumbled upon was to type what I could of it on an old Royal portable typewriter that my brother-in-law found sitting on the curbside one day as he made his rounds as a garbage collector in Darien, Connecticut. But it was a strange sort of communication, unsettling at first.

I found myself experiencing a consciousness radically different from anything I had ever before encountered. And it was too close for comfort. I felt as if something enormous were looking through my eyes, seeing the same room I saw every day but interpreting it so differently—mathematically, it seemed—that I hardly recognized even the most familiar of my daily objects. The thoughts, the ideas, the scope of the images—I was not used to thinking in such terms. I was unprepared, and not always able to follow. I balked in outright disbelief when the voice first suggested that this was some kind of extraterrestrial intelligence I was encountering—an explanation that even now I do not accept without qualification. But despite the fact that my mind frequently lagged behind, on an emotional level my heart and soul were experiencing a blissful, almost sexual, feeling of fulfillment.

I felt a peace that I could not account for, a sense of well-being deeper than I had ever known. When I understood what was being said, it was so wonderful that I felt like a child on Christmas morning. In a strange way it was almost as if I were remembering things rather than being told them. It was all I could do to keep my fingers in the vicinity of the ancient machine that, thanks to a generous dose of WD-40, was continuously tapping out some partial account of the thoughts that were rippling wavelike through my awareness. Several times I forgot to put wood in the stove until my numb feet reminded me of the winter creeping in under the door.

“Somehow, somewhere, he was given the keys to our future, and he generously and skillfully passes the secrets on to the rest of us.”

—Marianne Williamson

“The Third Millennium is a keen, poetic description of the emerging spiritual awareness. It tunes us to a new vibration.”

—James Redfield

“A prophetic announcement of the end of history as we have known it and the beginning of an era in which we become responsible for evolutionary governance.”

—Jean Houston, Ph.D

“A survival guide for the twenty-first century—profound, prophetic, and practical. This is a book to read and reread, a book that may well change your life.”
